# NEW GERMAN PREMIER SOON TO TELL AIMS

## SALT LAKE WILL JOIN TRACK OF S. P. AT FRUIT STREET-MAP

Blueprint Shown Council Indicates Plan For Connection of Railroads

### PAVING OF POINSETTIA PROJECTED BY CITY

Trustees In Advance Say They Do Not Want Alderman Resign as Inspector

The Salt Lake railroad is going to join its tracks to those of the Southern Pacific at Fruit street instead of above Washington avenue, as has been the expectation. Last night at the meeting of the City Trustees a blueprint was shown by George R. Wells, a blueprint that he got from the Salt Lake people showing where that railroad proposes to hook its tracks on to the S. P. That portion of the Salt Lake right of way between Fruit and Stafford streets on Poinsettia street is not to be used for the main line.

Possibly the Salt Lake plans have been changed, so that part of the property purchased by it and cleared of houses will not be used for railway at all. Possibly it will be for a spur track for store purposes. It can be used for the establishment of packing houses.

According to the blueprint, the Salt Lake will run on a straight line from the S. P. at Fruit street south across Poinsettia on to its right of way already cleared, across Brown, Sixth and Fifth streets, to Fourth, on the south side of which it is to establish its depot. Between First and Fourth, on the east side of Garfield, the blueprint shows provisions for the railroad's wagon tracks.

To Pave Street Wells of the firm of Bressler and Wells was before the city board with a petition for paving Poinsettia street, formerly D street, from Fourth to Washington avenue. Nearly all of the frontage on this street is owned either by the S. P. or the Salt Lake. Of the resident property owners 92.7 per cent signed in favor of crushed rock and oil paving. Since nearly all of the streets north of Fourth, west of the S. P., east of French and south of Washington have been paved with rock and oil, the city authorities are anxious that Poinsettia street also be paved. Action upon that street, however, has been withheld because it has not been known when the Salt Lake was going to come in.

"We thought it was to be here last January," said Trustee Tubbs. "It is not here yet, and if it does not move any faster than it has been moving at Whitlitt it won't be here in two years."

The trustees discussed plans for going ahead with the paving. Engineer Bonebrake asked for a report upon the kind of gutter to be used. Sewer Superintendent Reid said that there are four blocks on the street that have no sewers of any kind, main line of connections. It was proposed to put them into the specifications for the job, which City Attorney Scott suggested be put through under the street improvement act of 1911.

"We have been having too much trouble about getting all sewer and other connections put in before a street is paved," said Trustee Tubbs. "I suggest that we pass the responsibility to the contractor and require him to put up a bond to stand the cost and damage for every connection that is put in after the street is paved. We ordered all sewer connections on West Fourth made, yet we are ready to pave out there and find that some connections are still to be made."

The Poinsettia street proposal was continued for two weeks in order to get a report on drainage. The city engineer is to prepare plans and specifications for the work. The sentiment of the trustees seemed to be unanimously in favor of putting the paving through.

Alderman's Letter In regard to statements made at the last meeting of the City Trustees relative to paving inspection, the following letter was received from O. B. Alderman, an inspector:

Santa Ana, Cal., July 5, 1917.  
Honorable Board City Commissioners, Santa Ana, Cal.

Dear Sirs: I see by the published report of your meeting last Monday night two of your members criticised the paving of streets done this season, and especially the inspection of same. There is only one criticism of same. There is the least excuse. That is the broken gutter. I have been over this with the contractors. They have re-

## CROWN PRINCE SAYS DIVERS ARE FINAL ARGUMENT OF KINGS

NEW YORK, July 17.—"The last argument of kings" is what the German crown prince calls submarines, according to a special cable printed today by the New York Times from The Hague. The crown prince's statement was: "Borne upon the nation's confidence, with warmest wishes for favoring gales; upon their bridges, the nation's best, for their ships are served by crews despising death; hated and feared by our foe and ready ever for deeds of daring, may our submarines ever float the German flag victoriously through the seven seas and teach respect for them as the last argument of kings."

## SLAV MINISTERS RESIGN OFFICES

PETROGRAD, July 17.—Minister of Finance Shingareff, Minister of Education Manuiloff and Minister of Public Relief Phinche Shakhovskoy formally resigned today. All are members of the cadet party. Minister of Railways Nekrasoff is said to be considering a like move, but Premier Lvoff is endeavoring to dissuade him.

N. Prokopovitch was today announced as the new minister of commerce, to succeed M. Monoculoff, who resigned May 31. M. Tancharnowsky will succeed M. Manuiloff as minister of education.

Shingareff and Manuiloff were both members of the original Duma cabinet as it was organized immediately after the Revolt. Prince Shakhovskoy was formerly secretary of the Duma and director of the Petrograd grain elevators. Nekharoff was one of the cabinet. The cabinet has been hinted at in recent Petrograd news, being projected on account of necessity for greater harmony and more compact organization.

## MARINES FIRST TO LAND UPON FRENCH SOIL

Story of Battle Between War Transport and Diver Is Bared At U. S. Port

AN ATLANTIC PORT, July 17.—The marines were the "first ashore" in France. Also it was one of their troop ships that the German submarines fired on.

That the tradition of the marines was fully lived up to in the landing of America's first expeditionary army in France was learned here today. And with this came a first-hand story of one of the attacks on the American troops and their convoys.

The lookout on the marines' transport could not see the submarines owing to the darkness. He distinctly saw the wake of two torpedoes, however, one passing the bow and the other the stern of the ship. The destroyers were in full cry after the submarines, but the guns aboard the transport let go in the general direction in which the U-boats were believed to be. Then the destroyers swung into the line and the transport had to cease firing.

One destroyer coming from European waters, which met the American fleet, reported her belief that she had sunk a U-boat a few days before. Then the destroyer had answered the call of one vessel in distress when she heard another. Then, only a short distance away, a submarine was sighted. The destroyer put on full steam, charged directly at the U-boat, passed over the spot where the submarine had dived, and as she did so let go a depth mine. With the explosion of the mine, a vast quantity of wreckage and oil came to the surface, members of the crew said. This is probably the same incident reported by J. W. Pegler, United Press staff correspondent, from the flotilla base in British waters some time ago. The details are precisely the same.

"We guess some Heinies have missed the iron cross," was the way the destroyer crew reported their exploit to their fellow jacksies.

In addition to the brush with submarines en route to France, men of at least one of the troops believe that one U-boat was sighted on their return trip. The submarine was a considerable distance away. Shots were fired at her but the U-boat dived.

## SIXTY DAYS GIVEN SUFFRAGETTES FOR PICKETING AT CAPITOL

16 Militants Take Sentence to Workhouse Instead of \$25 Fines

WASHINGTON, July 17.—Sixteen women's party militants today accepted sentence to the workhouse instead of \$25 fines for obstructing traffic and attempting to picket the White House. The judge sentenced them to sixty days.

## FRENCH SHATTER TEUTON BLOWS IN CHAMPAGNE

Germans Suffer Heavy Losses In Heavy Fighting In Verdun Sector

NEW YORK, July 17.—Following is the United Press summary of today's war news from the western front. Germany's fruitless efforts to shake the French hold on the Champagne sector continued but were unsuccessful. Heavy fighting on the Verdun front netted heavy loss to the Germans. Field Marshal Haig's army engaged only in raids.

### FRENCH BLOW RECAPTURE TRENCHES AT VERDUN

PARIS, July 17.—German forces made further desperate assaults last night in the Champagne, seeking to drive the French from their newly won gains around Mont Teton, but were repulsed, today's official statement asserted.

The War Office also announced a vigorous offensive blow by the French around Hill 304 (Verdun sector), which resulted in re-capture of positions which had been lost to the Germans' great attack June 28 and 29. Many prisoners were taken in this battle, the number not yet having been counted. The Champagne fighting during the past three or four days, was the most bitter anywhere along the French front. The Germans have been fruitlessly trying by every means of attack and every weapon to break the French hold on the dominating heights there. Today's official report said:

"The Germans again attacked Mont Teton. Their attacking waves were withered in our fire and their troops fled back to their trenches, leaving many dead. All of the French gains achieved Saturday were held inviolate by our forces."

The statement said there was active artillerying around Cerny and Courcy.

## NOVELIST SINCLAIR ABANDONS SOCIALISTS

LOS ANGELES, July 17.—Because he disagrees with the party in that it is opposing war and conscription, Upton Sinclair, the novelist, today "split" with the Socialists.

## AMERICAN SCHOONER SUNK BY SUBMARINE

WASHINGTON, July 17.—The American schooner Childe Harold was sunk by a submarine in European waters June 20, the State Department announced today. All hands were landed at Montevideo. The schooner had no armed guard.

## 3000 MONARCHISTS AT PEKING SURRENDER

BY RALPH H. TURNER (United Press Staff Correspondent)  
TOKIO, July 17.—Three thousand of General Chang Hsun's soldiers of the monarchy, who were quartered in the Temple of Heaven, Peking, have surrendered with their artillery to the republican forces, according to delayed dispatches from Peking received today. Aeroplanes used by the republicans in their attack ended the opposition of the monarchists. During the fighting in the capital five or six foreigners are declared to have been wounded. The dispatches say the Japanese legion guards and the American legion guard of marines stood on watch during the hostilities but did not interfere.

## NEW FOOD BILL SEEKS CONTROL PLACED WITH BOARD OF 3

Chamberlain Redraft Gives Wilson Power to Fix Prices

WASHINGTON, July 17.—Senator Chamberlain today re-drafted the food control bill, providing for a food administration board of three members. It sets the minimum price at not less than \$1.75 a bushel for No. 1 northern wheat.

The President is given specific power to fix prices on fuel, wheat, flour, meat, beans and potatoes. He is also given power to purchase foodstuffs "at not less than minimum prices."

WASHINGTON, July 17.—America's great air fleet drew nearer reality today when the Senate Military Committee, without amendment, reported out the \$640,000,000 aeroplane bill with the recommendation that it pass.

### F. J. HENEY HEADS "BEEF TRUST" PRICE PROBE

LOS ANGELES, July 17.—Notice of his appointment by the Federal Trade Commission as chief counsel to conduct an investigation of the "Beef Trust," was received this afternoon by Francis J. Heney. Heney hopes to force protection for the consumer from high prices.

## CANFORAN TRACK TO BE TRAINING CAMP

SAN FRANCISCO, July 17.—Transformation of the old race track at Tanforan into a training camp for 2000 members of the naval reserve is the plan on which Mayor Rolph and his associates are working today.

The proposal has been taken up with Lieut. Commander Willis of the naval reserve, who expressed the belief that the old grandstand could be turned easily into serviceable shelter.

## FARMERS' GUNS READY TO STOP OREGON I.W.W.

Cattle Poisoning, Incendiary Fires Laid to Klamath Falls Agitators

BISBEE, July 17.—"We will return to Bisbee and kill every man who carried a gun in the big drive, and write his name in his own blood on his own door. Then we'll take the wives for ourselves." This is an excerpt from a note alleged to have been written by an I. W. W. at the Columbus internment camp.

KLAMATH FALLS, Ore., July 17.—Farmers in this vicinity today are arming to stem I. W. W. uprisings. Cattle poisoning, incendiary fires and general disturbances are laid to the doors of the agitators. The governor is preparing to take a hand.

### TEUTON I. W. AGITATORS HELD AS ENEMY ALIENS

GLOBE, Ariz., July 17.—Alleged to be German I. W. W. agitators responsible for starting the big Arizona copper strikes that have crippled the industry in the state for several weeks, three "alien enemy" Teutons were taken into custody here early today by the Department of Justice. Formal "alien enemy" charges were entered against them. One of the men is alleged to have had in his possession a large quantity of ammunition.

### GLOBE AROUSED BY SLAYING OF U. S. SOLDIER

GLOBE, Ariz., July 17.—"Shoot to kill" orders prevail here today following intense indignation of citizens growing out of the alleged murder of Private Mark Cafado, whose mutilated body was found on a railroad track yesterday. Officers appointed to probe the cause of his death reported it was undoubtedly murder. Lieutenant Bailey, following this report, announced that all guards had been given orders to shoot to kill if any one attempted to pass sentry lines without complete identity and authority. There has been considerable show of antagonism by I. W. W.'s against the troops.

## New Sugar Factory At Huntington Beach Planned By S. A. Men

SMELTZER, July 17.—Interests represented by W. F. Lutz of Santa Ana will put up a new sugar factory near Huntington Beach, according to the statement of Earl Farrar, if plans now maturing are successful.

Lutz has been through the Talbert and Smeltzer beet sections within the past two weeks interesting growers in the new project, and it is said that between 2500 and 3000 acres have already been signed for next year. Leo Borchard, it is understood, is one of the growers who has signed, the product of half his acreage next year going to the new sugar mill, if it is started.

W. T. Newland is said to have offered the company a five-acre site on the bluffs near Huntington Beach. According to reports, the promoters have already secured a six hundred ton plant in Washington and propose to move it here.

It is planned to make it a strictly co-operative sugar company, with the beet growers taking large blocks of the stock.

If the plant is built at Huntington Beach it will make two mills at that point and six in the county.

## 4 TEUTON SHIPS SATURDAY TO BE ARE CAPTURED BY BRITISH DRAFT DRAWING DATE, PLAN

LONDON, July 17.—Capture of four merchant ships in the North Sea yesterday was announced by the admiralty today.

The Germans did their best to make off and two were damaged by gunfire from the British boats which sighted them. The admiralty statement said: "Our light forces on patrol duty sighted a number of German steamers. Our signals were disregarded and the ships made toward the Dutch coast. Two of the rearmost were badly damaged by gunfire. The other four were intercepted and captured. Two crews escaped, the others were brought into the harbor. The names of the captured ships were Pelleform, Brietzig, Marie Horn and Heinz Blumberg."

This is the second instance recently reported of German merchant vessels being captured in the North Sea. Presumably these ships were en route to Scandinavia for German supplies. The recent falling off in Scandinavian sailings, due to heavy losses of ships and desire of shippers to save their ships by keeping them in port may be forcing Germany to take great chances to get much needed supplies. Lloyds registries lists the German ships as follows:

Pelleform—no such vessel listed; may be the Pellworm, a steel screw steamer of 1370 tons, owned by the Hamburg Manchester line and registered at Hamburg.

Brietzig—steel screw steamer, 1495 tons, owned by F. C. Heinrich, Hamburg.

Marie Horn—steel screw steamer, 1088 tons, owned by H. C. Horn, Lubbeck.

Heinz Blumberg—steel screw steamer, 1226 tons, owned by Leonardt and Blumberg.

## CRAZED WOMAN STEALS BABE IN S. F. STORE

SAN FRANCISCO, July 17.—Three weeks old Samuel Unger, son of Morris Unger, returned to his parents today after his first experience in the wide world. With his mother Samuel went shopping. In a department store Kathryn Strong, recently released from an insane asylum, was attracted by the child. While the mother was busy shopping Miss Strong appropriated baby, carriage and all, and disappeared. A few hours later she was found at her father's home, protesting that the baby was hers. She had to be overpowered before the child could be recovered.

## WOMAN 'SAMMY' WILL RETURN TO ARIZONA

NEW YORK, July 17.—Wearing the very latest in feminine "gee gaws" and a wig of long black hair, Mrs. Hazel Blausser Carter, who, with her hair cut short and wearing a khaki uniform, went to France as a soldier on an American transport so as to be near her soldier husband, was to leave here for her home, Douglas, Ariz., today. "I nearly got away with it," said Mrs. Carter. Government authorities who had been at a loss to know what to do with the first woman "Sammy" were relieved of their charge last night by the matron at the Hoboken police headquarters.

## CHANCELLOR IS INTEREST PIVOT AS REICHSTAG PREPARES TO REASSEMBLE

Germany's Political Crisis Is By No Means Ended, London Report

### MICHAELIS MUST SHOW COMMAND OF POWER

Liberal Chiefs Dissatisfied With Appointment of Hollweg Successor

BY JOHN GRANDENS  
BERLIN, July 16, Via London, July 17.—Chancellor George Michaelis' program is to be: A strong policy without: unity within. Highest sources gave this outline of the new premier's fundamental theories today.

Berlin is keenly curious to hear the new chancellor formally set forth his aims and policies. It was announced today that re-assembling of the reichstag for a meeting at which the new premier would make his maiden speech might be possible before Thursday.

Until the new chancellor formally states his policies the Berlin press will continue cautious about giving him support or voicing opposition, according to indications today. All newspapers concede Dr. Michaelis' strength of character. But the Socialist organs and Socialist party members were particularly reticent about expressing an opinion as to him.

Jingoes Play Hollweg Meantime the jingdistic press is pursuing its condemnation of former Chancellor von Bethmann-Hollweg with unprecedented vigor and hatred.

Most reichstag leaders today professed the belief that the kaiser was sincere in the regret over Hollweg's retirement, voiced in his letter accepting the premier's resignation. They pointed out that the emperor appreciated the support of the war by the Socialists' and Workmen's parties was largely due to Hollweg's efforts.

A number of conservative leaders declared the kaiser only accepted Hollweg's request to retire when the premier's indecision between reaction and liberalism was apparent and when it seemed best to take this course to avoid an open break. Hollweg was held by these elements to have alienated the liberals at the last, but today even these party members were charitably inclined toward the former chancellor, attributing his efforts as being impelled by the best intentions but directed without "backbone."

Hollweg is freely credited by liberals with accomplishment of electoral reform in Prussia.

Settlement of the chancellorship fight by Dr. Michaelis' appointment demonstrates the old rule in German politics that none can retain power whom the conservatives doom.

German leaders declared today that Bethmann-Hollweg's removal eliminates the greatest obstacle to the solution of the whole German crisis.

Appointment of Dr. Michaelis was regarded by them as indicating a satisfactory solution was possible because the new chancellor will have approval of most parties. In his connection, Dr. Michaelis' words when he entered the food control department, that he was proceeding with the determination to take strictest measures against interferences, were recalled today.

Names of other new cabinet members will be announced shortly, it was said today, and then the reichstag will be able to resume its discussion of pending questions—parliamentary reform and the majority parties' latest peace formulas. The reichstag may be able to meet before Thursday.

German officials indicated the chancellorship fight was settled earlier than expected.

LONDON, July 17.—Germany has not yet fully passed her internal crisis. The new chancellor, Dr. Michaelis, still has to show he can command enough support in the reichstag to pass the credits bills. Dispatches from Germany indicated this obstacle to complete victory by the junkerites is no small one. Liberal leaders in parliament are dissatisfied with Michaelis' appointment without any conference with reichstag members.

A Berliner Tageblatt editorial, quoted in cables today, vigorously assailed the methods of the Michaelis appointment.

"Michaelis has been imposed upon by the people from High Olympus," it declared. "We are a long way yet

# SOLID READING IS GAINING IN FAVOR, SAYS LIBRARIAN

Less Fiction, More Thought Material Shown In the Books Distributed

HIGH SCHOOL WORK ADDS TO ITS DUTIES

Annual Statement of Public Library Shows Many Interesting Statistics

Santa Ana is consuming less fiction and is taking to solid, substantial reading.

That is a feature of the annual report of Miss Jeanette McFadden, city librarian, to the library trustees.

In the last year 70,113 books were passed out over the counter of the Public Library. These books are the ones that were taken home by the library patrons. Fiction comprised 46,298 of the circulation. Sixty-six per cent were fiction books and twenty-five per cent were juvenile books.

The rest goes to solid reading, such as sociology, history, useful arts and literature.

In the last year there was a gain of 6,499 in the circulation of the library, yet there were 329 fewer fiction books issued than in the year previous.

The library trustees have turned over to the City Trustees a detailed report of the work of the library for the year.

**Trustees Statement**

The statement of the Library board to the city board follows:

To the Honorable Board of Trustees of the City of Santa Ana:

Gentlemen:—In accordance with the requirements of the State Library Law the Board of Directors of the Santa Ana Free Public Library here by submit their report for the year ending June 30th, 1917, together with the report of the Secretary and Librarian, showing the work accomplished during the year and the present condition of the library, to all of which your attention is most respectfully invited.

The receipts derived from taxes, fines and book reserve fund amounted to \$6662.94. Of this amount \$2084.78 has been expended for new books, periodicals and rebinding of old books. The annual running expenses of the institution, including salaries, supplies, light, fuel, furniture and fixtures, building repairs, etc., has totaled \$3837.92.

The board desires to state that although the report of the secretary shows a cash balance of \$3124.28, about \$2200 has been set aside to defray salaries and running expenses until the next tax distribution. Besides this there will be bills for books, binding, etc., that will have to be paid.

The total accession of bound volumes for the year was 1735. The loss sustained by wear, by books lost, etc., amounted to 340, leaving a net gain for the year of 1415 volumes and making a total of 17,785 volumes in the library June 30, 1917.

The circulation for the year was 70,118, being a gain of 6,499 over the previous year. The present membership is 5230.

The needs of the library are the needs of the entire community. They are constant and ever increasing. However we will mention only one, more room. The library building is becoming entirely inadequate to the demands made upon it, and the time is rapidly approaching when larger accommodations must be provided for its use. Constant shifting of books is made necessary by the crowded condition of the stacks, and to relieve the stacks on the main floor a number of books have been moved to the basement. During the busy part of the year the seating capacity of the room in use is inadequate and the counter space is, on busy days quite insufficient. There is no longer floor space for additional stacks in the stack room. If we would keep that high degree of efficiency for which the library has been noted, we must use every effort to increase its usefulness.

Thanking your honorable board for past favors in the way of revenue, etc., which alone makes its activities and influence possible, we would respectfully urge you to appropriate for us not less than 9 cents on each one hundred dollars of the valuation of city property assessed for taxation.

Respectfully submitted,

BOARD OF LIBRARY TRUSTEES.

C. D. BALL, President.

**Librarian's Report**

The report of Miss McFadden, the librarian, for the past year follows:

To the Honorable Board of Directors of the Santa Ana Free Public Library:

Gentlemen:—I have the honor of herewith submitting to you the twenty-sixth annual report, a statement of the work of the library from July 1, 1916 to June 30, 1917.

The library subscribes for 96 periodicals, of which 6 are duplicates.

There are on file in the reading room 19 newspapers.

This year our routine work in all departments has greatly increased, while the staff remained the same in number.

As a consequence little advanced work has been undertaken.

The reference work with the high school has become so heavy that it has been necessary to have two attendants on duty three evenings of each week. The work in the grammar schools has consisted of special privileges to teachers for the use of books in their work, special reference work and investigation. In addition to the reference work with the schools we have calls from clubs, persons who are writing papers or investigating subjects, etc.

About a year ago we began the classification and cataloguing of our pamphlets with the idea of making them convenient for reference work. We have succeeded in this to the extent that our pamphlets are referred to almost daily.

The library should undertake more extensive work. In spite of our large comparative membership there are still persons who might become members were we able to do more in the way of making our possessions known. A local historical society should be organized to preserve the history of our valley, and the public library is the logical mover in such an enterprise. There has always been and is a continuous demand from strangers and tourists for material patrons of the library, for material on Santa Ana and Orange county. An effort should be made to collect all available information on the subject, and have a Santa Ana and Orange County historical department. As material is limited and hard to get, it would be a great help to have the co-operation of the residents of our city in this.

The library has received from fines, book reserve, etc., \$351.95 which amount has been turned over to the City Treasurer from month to month.

To the Santa Ana newspapers we would give particular thanks for their kind and generous treatment.

In conclusion permit me to thank the Board of Directors for their kind co-operation and assistance in all matters regarding the interests of the library.

Respectfully submitted,

JEANETTE E. MCFADDEN,

Librarian.

# SALT LAKE WILL JOIN TRACK OF S. P. AT FRUIT STREET-MAP

(CONTINUED FROM PAGE 1)

built the larger breaks and assured me they will fix the others to the satisfaction of property owners if owners do not ask that work be done better than specified.

As to work on East or West Fourth street that is not within rifle shot of specifications, to this date: There has been no pavement put on this street since I have been inspector for the city, except that put in by the Pacific Electric railway. This the city did not inspect.

Contractors are getting West Fourth street ready to pave but have laid no pavement. They have in the sub-base, which I had been over when I received a telephone message from Mr. McPhee saying there were places where it was within two and one half inches of the top of the stakes or top of the cement grade. I went out and put in part of a day looking for these places and had not found them, when I went back and found General Martatt, street commissioner; Mr. O'Brien, street superintendent, and Mr. Stuckey, contractor, in conversation. Mr. O'Brien said he thought it would be a good idea to have the city engineer check up the stakes and grade. Mr. Stuckey consented to this and the general concurred, this making it satisfactory to the city and contractor. I supposed there was no call for my giving it any further attention and have not. There is some bad gravel delivered on this job, which I have condemned and Mr. Stuckey has said he would make good, which he will do before he commences to spread concrete.

On all streets paved and inspected by me this season, with rock and oil, the gutters and subbase have been to specifications. The rock has been two or more inches thick and properly rolled. There has been the required amount, or more, of oil applied at specified temperature.

I have furnished the city a sample from each tank of oil. As I have not seen analysis, do not know quality.

As to my time last month, I put in three full days and eight half days. I went out on the work a number of days when I could not see that the city needed my services. For these I made no charge. The commissioner who says he thinks the quality of oil was too light, has no excuse for thinking anything about it. He should know; he had samples of every tank in his department. Why didn't he have it analyzed and know what he was talking about?

The expensive education the city has given me is too childish to call for a reply.

Yours,

O. B. ALDERMAN.

No Reflection

"So far as what I had to say," said Trustee McPhee, "I stick to my statement that some of the work being done was not within rifle shot of the specifications. What I said I can prove. However, I meant no reflection upon Mr. Alderman. I know he is a good man for the job." McPhee referred to his statement that an inspector was not kept on some of the work all of the time, which statement he made in connection with his reference to the "rifle shot."

Mayor Visel said he understood that Alderman was going to resign as inspector. Visel said the board should go slow about accepting the resignation of a man as good as Alderman.

"No man can fill a public job to the satisfaction of everyone," said Tubbs.

"Mr. Alderman is a good inspector, and is worth more to the city now than he ever has. He is square and honest."

**Some Fireworks**

"I guess I will say something about this inspector business," said Trustee Maryatt. "The law says that an inspector shall be appointed by the street superintendent. Alderman never was appointed by the street superintendent, and I can't see that he has any position from which to resign. The street superintendent put another man

# ADD SALVATION ARMY TO POLICE FORCE OF CITY OF SANTA ANA

The Salvation Army is now officially on the payroll of the police department. Hitherto the city has been paying \$25 a month to the salary of the secretary of the Associated Charities.

"We designated her as a police officer so that we could pay \$25 a month to the cause," said McPhee. "The secretary is going away on a two months vacation, and I suggest that we turn that \$25 to the Salvation Army. I understand that the Associated Charities has been costing \$3.50 to administer the distribution of \$1, and that a lot of people who apply to the Associated Charities are turned over to the Salvation Army anyhow. We might as well deal hereafter directly with the Salvation Army." McPhee's motion was made and carried, the appropriation to the Salvation Army to continue "at the pleasure of the board."

# REID HAS PLAN FOR IRRIGATION OF LOTS FROM THE FIREPLUGS

Water Superintendent Reid said that he favored selling water for irrigation, using fire hydrants for delivery. Experiment showed that one acre could be irrigated with 1040 feet of water, at ordinary rates, \$10.40. Reid suggested sale at half price.

"I think we could furnish water for irrigating through the summer for 100 acres," said Reid. Reid and Greenleaf were given authority to work out the plan and start the delivery of water as they see fit.

In, and the first I knew that man was out and Alderman was in. I was told that McPhee came along and put Alderman in as inspector."

This got McPhee out of his chair. With directness, McPhee said that Maryatt ought to refer to the minutes of the board instead of making off-hand statements, that the minutes showed that the board, not McPhee, had appointed Alderman as inspector.

"I don't presume to act for this board or to upset its orders," said McPhee, "and I might call attention to the fact that one of our number does undertake to upset this board's orders, for when sidewalk and curbs were ordered in on Custer street a member of this board told one of the property owners that he did not have to have the work done."

"I did not tell him he did not have to have the work done," declared Maryatt. "I told him he would have to take it up with the board."

There the controversy ended.

Alderman's report was accepted and placed on file.

**For Paving**

A petition for paving Eleventh street between Main and Spurgeon

street was presented with 200 out of 1000 feet frontage signed. It was sent back for more signatures.

The board was asked to meet with the firemen for drill tonight. Tubbs said the object of the meeting is to show the trustees that the department needs a new hook and ladder truck.

Trustees McPhee and Greenleaf were named as a committee to see Deputy City Treasurer Stafford, who asked for a cancelling machine. Visel said that since "the bank gets the use of the city's money, it ought to furnish the machine, to cancel coupons."

**Are Re-Appointed**

Dr. C. D. Hall and G. H. Randall were re-appointed members of the library board.

A petition for the removal of loose material on top of Sixth and Minter streets was granted.

Trustee Tubbs said that Edinger street has been put into fine shape by Street Superintendent O'Brien. The cost of it is \$205, of which the city pays one-third.

**Seeking Speed Job**

Applications for appointment as speed cop were received from G. H. Franzen, L. H. Gibbs, H. S. Schuerman, Jr., C. C. Curry, T. O. Frazier, Jack Callahan, G. S. Matthews, Tom Rose and Perry Ballard. The applications were referred to Tubbs and Greenleaf for a recommendation.

Tubbs stated that there is a lot of loose dirt left at the edge of the new shoulders on West Fifth street. Street Superintendent O'Brien said his teams would move the dirt soon.

**Seventh and Main**

Greenleaf reported that there is a bad hole at Seventh and Main. Engineer Bonebrake said that S. J. Jackson had caused the hole to be cut in the pavement, and Jackson had promised to fix it, but had been sick. McPhee said the hole is a menace to public safety, and on his motion the street superintendent was instructed to fill the hole at once.

Tubbs reported in relation to J. N. Anderson's petition to have oil put on Lacy street between Wellington and Washington, that that block had been ordered paved, but had not been paved. Nothing was done with the petition for oiling.

McPhee and Greenleaf reported that the street department would fix the end of Van Ness at Tenth street.

**Santa Fe Street**

Greenleaf was named as a committee to see if the S. A. V. I. Company will move its gates off of Santa Fe street, which will then be improved by the Santa Fe, Taylor Ice Company and Dale Manufacturing Company.

"We ought to tackle Bristol street again," said Visel. No one added a word.

The advertisement for bids for plans and specifications for two bridges over the Santiago Creek was ordered published.

**Six Lots Are Shy**

Street Superintendent O'Brien stated that there are six lots on West Fourth that have not signed the private contract for paving. City Attorney Scott said that he thought the city should wait for two weeks, and then commence proceedings against any lot that was not signed up. He said proceedings centered on one lot would make the paving cost \$390.

## SCENIC ROAD TOP MOUNTAINS IS SUGGESTED BY TURNER

Most Attractive Drive In So. California Possible of Development Here

Declaring that Santa Ana would today have a population of 25,000 instead of 15,000 had Santa Ana been alive to the natural advantages surrounding the city, J. A. Turner, cashier of The Farmers and Merchants Bank, suggests that in the opening of a scenic drive atop the mountains from Bixby's Heights at Olive across Santiago Canyon to join with the Skyline Drive at Lemon Heights, Orange county and Santa Ana could add one of the most attractive drives in Southern California to the long list of charming drives and scenery now existing here.

Turner has assurance that a right of way for the scenic road through the Bixby property can be secured, and believes that if such a road is built it will rival the Rim o' the World drive which has brought San Bernardino fame. From Bixby Heights the whole of the fertile lands of Orange county can be seen, excepting those lying in the mountains.

Turner will probably present the subject of the road to the Associated Chambers of Commerce at its meeting to be held at Seal Beach, Wednesday evening, July 25.

"There are many things that would benefit us," says Turner, "but in my opinion, our paved highways have done us more good than anything we have ever done in the way of improvement and I now believe that one of the most urgent needs is some well-laid-out scenic roads, for which nature has laid the foundation in a most lavish manner."

"Scenic roads bring tourists, and tourists bring money and create a demand for tourist hotels and tourist money will help build them, if we create the demand. Santa Ana is acknowledged to be one of the very best cities of its size in the state and Orange county has no equal in all the land."

"I have seen Santa Ana, within the last thirty years, grow from a small village to a city of 15,000 souls. With our facilities and resources we should have 25,000. We have slept, while others worked."

"Look at Riverside, Redlands and Pasadena, our neighbor cities; Pasadena, with her Mt. Lowe and Mt. Wilson roads; Riverside, the home of the navel orange, with her Rubidoux and Magnolia drives, her Glenwood; Redlands with her Smiley Heights and scenic drives on her mountain sides; San Bernardino, with her Rim o' the World drive; all of them overlooking their valleys and the lovely homes of the millionaires, drawn there, in a great measure, by the scenic roads and drives."

"It is time for us to wake up, shake off the lethargy that binds us, and grasp the opportunities surrounding us."

"Our county, the smallest in the state, is bounded on the west and north by Los Angeles county, on the east and southeast by Riverside and San Diego counties, on the south and southwest by the glorious old Pacific, whose waves whip her shores for more than forty miles, sending her ocean breezes to every nook and corner of the county, throughout every day of the year."

### County's Vast Resources

Orange county is the home of the Valencia orange, which will do for us what the navel has for Riverside county in the days that have passed. The Valencia will do its work, yet it is only an item in the list that tends to make our county the peer of them all, and why? Because of richness of its soil and the diversity of its products; it is the Egypt of the Southland. It is the home of the English walnut and there are vast acreages of Valencia, lemon and walnut orchards, the finest in the world, and here and there are orchards of the apricot, the peach, the pear, the avocado and the plum, all of which grow here to perfection.

"Then we have some forty thousand acres of Lima beans, twenty-five thousand of sugar beets, five thousand black-eye beans and as many more of chili peppers and pimientos. Untold acreage of strawberries, string-beans and tomatoes, vegetables of every kind and description for our canneries, poultry yards, dairies, barley, alfalfa and old fields, the resources of which pour a steady stream of gold into the pockets of our people, not in any certain season of the year, as is the case in most sections, but

throughout every blessed sunny day of the year, of which we have more than any county on the globe. It is a wonder we claim to be the banner county of the state, the peer, the gem of them all?

"We have been slow, it is true, but there is a reason for all this. Thirty years ago our people were all poor, with no money for development purposes. They did not know the possibilities of the hidden wealth of water in the underground reservoir that underlies almost the whole of our county, and had they known, did not have the means for developing it. But all this has changed now, our people own their homes, their farms, the people who were poor are now well-to-do, many wealthy. Is it not high time for us to wake up and show our surroundings, our resources to the world and let those who come among us see what we have and what we are? How can we do it?"

What Three Men Have Done "Ed Utt, Geo. E. Marcy and Robert Simon may well be given credit for showing us the way. No one can drive over the hill crest roads, built by these men, to the east of Tustin, on what is known as 'Lemon Heights' in the Red Hill district, overlooking a section of our valley, without being impressed by the beautiful panorama spread out before them. It is a beautiful scenic view even to an old timer—how much more so to the tenderfoot, as we used to call them, but you can only see a section from the Heights here. I shall never forget when I first visited this section and stood on a little knoll in what is now called Lemon Heights. I then and there decided to own it and the acres surrounding it. I bought it for less than \$15,000.00 and three years later sold it for \$43,000.00. Pardon the personal reference, but I speak of it only to show the possibilities of Orange county."

"What we need is more scenic roads to show our resources, our orchards, our fields, our homes, our wealth, our county. I have ridden after my pack of fox hounds over all the scenic heights within a radius of many miles from Santa Ana and the most inspiring sight I have ever had of our county is the view from the Bixby Heights, east of Olive. The main divide or ridge extends east from Olive almost through the center of what is known as the Bixby Ranch of several thousand acres. It is a gradual climb from Olive to Robbers' Peak, over which hangs a story of the past, that would make interesting reading even to our oldest residents. An Inspiring View

"As stated before, Lemon Heights gives a beautiful view of a section of our county to the south and west, but the view from Bixby Heights is a glorious, inspiring and magnificent view of Orange county as a whole. From these heights, with the mountains as a background, spread out before you, lies the County of Orange, a principality within itself. Its broad and fertile acres extending from mountain to sea, with the lemon, walnut and Valencia orange groves spread out at your feet to the north, the west and the south, with the broad fields and the ocean in front of you, Newport, Huntington Beach, Seal Beach, Santa Ana, Anaheim, Fullerton, Placentia, Orange, La Habra, Brea and her oil fields, with Long Beach, San Pedro, and Catalina in the distance."

"No man or woman, who has any love for the grand and beautiful, can stand on these heights, as Moses did when he viewed the promised land, without exclaiming 'Oh, what a grand sight!' It is the garden spot of all the earth and destined to be the playground of the tourist from all parts of the world, dotted here and there with the homes of our people, the most prosperous, contented and happy people in all the land."

"Let us build a scenic road over Bixby Heights, connecting with the Santa Ana Canyon, the County Park and the Lemon Heights roads, so that the tourist and our own people as well, may see Orange county, its cities, its homes, in all its grandeur and glory. The right of way over Bixby Heights can be had for the asking, if our people will do their part, and I speak whereof I know. Everybody should boost for the Bixby Heights scenic road. Let this be done and we will soon have an incomparable scenic road, from which one can look down upon the most beautiful, the grandest and the most favored spot on God's footstool."

## BRITISH DEMAND FOR HONEY IS RESULTING IN HIGH PRICE

Apiarists to Realize Goodly Sum Despite Fact Yield In County Is Slim

In one very substantial way the war is proving of benefit to Orange county. Due, it is believed, to enormous demands for honey for Great Britain's soldiers, the product of the hives this season is bringing a higher price than has ever been known.

Prices at present range from 10 to 12½ cents per pound, depending on grade. Because of the high price level reached, apiarists in the county will realize a goodly sum for their product, despite the fact that the county's crop is estimated at only 150 tons, or about a fifty per cent crop.

Honey buyers ascribe the high prices to tremendous export demand. England, it is stated, is making the biggest call for the product, the British Tommy evidently having a sweet tooth that the war chiefs believe in catering to. Then, too, there is a patent medicine firm in London that uses vast quantities of honey in the manufacture of its product.

As regards the reason for the short crop in Orange county, it is stated that the cold spring and the hot weather during June were responsible in large measure for cutting down the honey-yielding blossoms. Sage blossoms were practically a failure this season.

The bulk of the honey in Orange county is produced in Santiago and Trabuca canyons.

The crop in the county has been entirely harvested.

## SEAL BEACH BRIDGE IS TO BE REPAIRED WITHIN A FEW DAYS

The first of the remaining steps to be taken before the coast boulevard between Seal Beach and Huntington Beach can be open for travel at the Seal Beach end will be taken next week. City Attorney J. C. Burke and other officials have made arrangements for the immediate delivery of enough piles for the repair of the bridge across Anaheim Landing.

Next week the piles will be in place and the bridge will be open for traffic. After that teams from the Seal Beach side can complete hauling for the building of a dirt road for one-eighth of a mile to connect with the end of the county boulevard.

For trip to Long Beach, San Diego or anywhere, call 399-M. Big, easy-riding Franklin car.

## HALF BILLION ADS GIVEN LIBERTY LOAN

WASHINGTON, July 17. — More than \$500,000,000 worth of free advertising was given the United States government in its campaign to float the Liberty Loan, according to estimates made by Treasury officials. This does not include the hundreds of millions of dollars worth of space given in small country newspapers which never reached the attention of the government.

Whole newspaper pages, moving pictures, millions of posters, sign boards, hand dodgers, paper bombs, and hundreds of other means of bringing the bonds to the public were donated to the government by patriotic citizens.

The use of the editorial and advertising pages of 273 technical papers was donated; trade journals threw open their columns. Boy Scouts spent weeks in folding and mailing 4,600,000 folders printed at the Government Printing Office.

Thirty-six different languages were represented in the hundreds of foreign language papers which came to the assistance of the government.

Almost 2,000,000 large posters were distributed in all parts of the country, free of charge. The number of posters distributed by local committees for local use would more than double the above number.

More than 1,000,000 copies of Secretary McAdoo's Liberty Loan speeches and 2,500,000 circulars describing the loan were mailed from Washington, and distributed free. Almost 500,000 Liberty Loan primers were distributed free to the government.

Business firms, corporations, chambers of commerce, schools, private individuals, and every bureau of the government responded to the plea of the government to advertise the bonds on their stationery, and the slogan "Buy a Liberty Loan Bond" was almost as common during the campaign as a postage stamp.

In spite of the hundreds of millions of dollars of free advertising it is estimated that the total bill of the government for floating the loan will run over two or three million dollars.

DILLENBECK HAS AGENCY W. D. Dillenberg has taken the agency for the products of the Western Auto Supply Agency of Los Angeles and has opened headquarters at 308 Bush street. The store is not a branch of the Los Angeles agency.

## CONDITIONS IN GERMANY TOLD BY ANAHEIM TRAVELER

Leaves Empire February 28; Saw No Indications of Food Shortage

ANAHEIM, July 17.—Fred Staehne, former Anaheim mail carrier, has been an object of curiosity among former acquaintances for the last week by reason of the fact that he has just reached home here after an attempt covering the period since last February to get out of Germany and to find passage here.

Staehne had been on an extended visit to his birthplace in Northern Germany, leaving Anaheim with his parents and wife March 8, 1914. His father died April 11, 1914, shortly after their arrival in Germany. His mother and wife accompanied him back, his mother, aged 73, standing the trip back better than he or his wife.

Staehne had been in America thirty years, having come over at the age of 7, and his passports were based upon his mother's naturalization papers.

Sees No Food Shortage Staehne observed none who were seriously short of food up to the time he left Germany, February 28.

"Food prices are two or three times higher than before the war," says the returned traveler, "but even so they are lower than in any other country we passed through on our way here, including America, and we were in Denmark three months, Sweden, Christiania, Norway and Halifax, Nova Scotia."

"In February potatoes were selling for about \$1 per 10 pounds, while they were about \$5 per 100 in Anaheim, the German government fixing that point as the maximum. Sugar was 7 to 8 cents a pound."

Staehne does not look as if he had been starved and he says he weighed 187 pounds when he left, which is about 20 pounds above his usual weight.

"Russian prisoners are actually getting fat," continues Staehne. "They are chiefly employed upon farms where the men of the family are in the army. The women folks are not very successful in making them work and their jaws spread out like hogs from the leasurely life they lead, with plenty of farm stuff to eat."

Cities Affected In the cities there is not the surplus there is in the country, Staehne taking in quantities of eggs, butter and the like when he visited relatives in Berlin as he did on several occasions.

Commenting on the cripples and wounded soldiers returning from the front, Staehne said there were freaks in the way of wounds generally believed impossible.

"I saw one man who had been shot straight through the head, from temple to temple, and he was up and going the same as ever when I met him. Another fellow got it through the face, the muscles of both jaws being torn away, but the doctors fixed him up so that he had no trouble once he got his feet under the dining table."

There are hundreds of Americans in Germany who are making no effort to get out of the country, and they will not be harmed, said the former mail carrier.

Yankees Lack Funds On the other hand, there are large numbers of American citizens in Denmark, Sweden, Norway and other neutral countries who are anxious to get home, but lack the funds, more than ever necessary, with the increased cost of ocean passage. A second class ticket when Staehne returned cost \$100, compared with \$45 to \$50 before the war. They will be still higher, says Staehne. Then it's difficult to get a berth if you have the funds.

Staehne had applied for permission to leave Germany before the break with America and got an order good for thirty days, from February 25 to March 25, through his choice of route into Denmark. Other American citizens, who had made no such request previously, had to get out in three to five days without having any voice as to what boundary they should pass over.

Waited for Money Staehne wore out shoe leather for months waiting until he could get word to an Anaheim bank that he wanted \$500 to get home on. He was unable to borrow the price of a cablegram at the American consulate, but was referred to a bank which, after much persuasion, advanced the price. It took a month and cost about \$100 in exchange fees to get the \$400 that was left. The transaction should be accomplished in eight days. Finally, on June 4, the Staehne party left Denmark with their money by train for Christiania, where they boarded the Danish steamer United States for Halifax At Halifax Staehne had some trouble with his passports because of the fact that his naturalization claims were based upon his father's papers, but this was cleared up.

Going to Stick It Out Staehne says the people in Germany do not say they are going to win the war, but that they are going to stick it out to the last because, as they see it, "they are fighting a

### THE END OF KINGS

This is an unlucky year for kings. Several have lost their thrones, some temporarily and others permanently. And good and bad alike, they all find their seats shaky.

Czar Nicholas is in prison. King Constantine of Greece is an extremely private citizen in a Swiss health resort. The kings of Serbia and Montenegro are in exile. Albert of Belgium is driven to hold his court in France. Ferdinand of Roumania is clinging precariously to a remnant of his domain. The Teuton prince placed on the improvised throne of Albania before the war is in retirement. The royal consort of the queen of Holland is in jail, as a result of pro-German activities. The reign of Alfonso of Spain is in imminent peril, not because the king is unpopular but just because he is a king.

The revolution against monarchy is world-wide. The latest proof of the strength of the new movement is seen in China. The ancient dragon throne of the Manchu dynasty was refurbished the other day, and the youthful emperor, Hsuan Tung, was seated in it, but within a week he was forced to abdicate and the authority of the republic was restored.

All this serves as a vivid reminder of prophecies made a century ago by two great men.

Napoleon remarked that in a hundred years Europe would be "all Cossack or all republican," using the word "Cossack" as a symbol of military autocracy. He did not foresee which would triumph, but now the outcome is clear. The Cossacks themselves have turned democratic.

Lord Byron wrote in his diary, in 1821: "The powers mean to war with the people. Let it be so—they will be beaten in the end. The King-times are fast finishing. There will be blood shed like water, and tears like mists; but the people will conquer in the end. I shall not live to see it—but I foresee it."

Today the "King-times" are really finishing. The people are conquering. And it is worth the "blood shed like water and tears like mists."

### BONDS FOR EVERYBODY

It is expected that the next war loan, to be issued perhaps in September, will include "baby bonds" in denominations as low as \$10. This would be a very desirable innovation. It would undoubtedly result in swelling by several millions the number of Liberty Loan investors. More important than that, it would contribute greatly to the establishment of a new, national thrift habit.

Our people have never saved half the money they might easily have saved, simply because they knew of no easy, secure way of investing it. Bonds were supposed to be for the rich. Most Americans have never seen a bond. Before this war is over, the government should see that they are made as familiar as bank notes.

A writer in the Saturday Evening Post suggests that buying bonds ought to be made as easy as buying cigars, candy, stockings and shaving soap. If small denomination bonds were on sale everywhere, he says, people would buy them as a matter of course, with money they now spend for things they don't need. They would readily supply the government with all the money it needs to carry on the war, most of it being money that would otherwise be wasted. Thus millions who have never saved before would "get ahead in the world." And the nation as a whole would benefit greatly. There would be abundant capital for all legitimate enterprises, opening up national resources hitherto untouched.

"Once the habit of saving and buying a bond is established," says Frank A. Vanderlip, the New York banker, "it will not be abandoned when the war is over, but a million new springs of wealth will be developed."

The Press Humors held a national conference in New York recently. They fail to find much inspiration for their line of literature in present-day conditions.

It is no longer "Millions for defense, but not one cent for tribute." We speak in terms of billions in these later days.

## CANNING LESSONS

A very simple method of making jelly in given in today's bulletin from the National Emergency Food Garden Commission, which is co-operating with the Register in its campaign to induce the housewives of the country to conserve the food which otherwise would be wasted.

Pick over currants and remove all stems and leaves, and then place them in an enamel lined preserving kettle with a few of the bottom berries crushed to prevent burning. When hot, crush berries and strain through a double layer of cheesecloth. Do not press juice from the crushed berries; take hold of the opposite corners and roll the mass back and forth in the cloth. A more transparent jelly will be obtained if the juice is strained through a flannel bag.

After measuring the juice, put it into the clean preserving kettle, bring it to a gentle boil and skim. Then add a little less than a pint of sugar for each pint of juice and bring to a boil again. (Sugar should be heated before placing in fruit juice.) The time required for boiling after the addition of the sugar should be about

four minutes. Skim and pour into sterilized jars taken directly from hot water.

The glasses of hot jelly should be placed on a board and the board set in a cool sunny window where there is no dust. After the jelly has "set," it may be covered in one of several ways.

Cut out pieces of stiff paper to fit over jelly, but a few drops of 95 per cent grain alcohol on jelly, dip paper in alcohol and place on glasses. Pour melted paraffin on top of the paper to the depth of a quarter of an inch. Put on tin covers if available. (The purpose of the alcohol is to destroy what molds and bacteria there may be present. Jelly sealed in this way will keep for several years without the formation of acids of molds.)

Another method for sealing jelly is to substitute a cap of writing paper for the paraffin and tin cover. The paper should be at least half an inch larger than the glass. It should be dipped in alcohol and then sealed around the edges with a mixture of white of an egg and a teaspoonful of water.

### With Malice Toward None

By Henry James

When one of the Gould family is married, the affair really concerns two people, and outsiders mixing in are a lot of Buttricks.

However, since a son of George Gould did marry, and there has been much ado about it, I desire to add to the output the general observation that it is his own business and that much of the comment is sheer insolence.

Many of us remember when George Gould married Edith Kingdon, an actress of fine ability and a woman of gracious presence and manifest culture. There was much shrugging of the shoulders at the time by the busy-bodies.

The bride of young Gould had been a governess and so one of the harpies of the society columns terms her a "servant," which, under the absurd notions prevailing in this democracy, is a title of reproach.

Among the luxuries that a rich man may afford without reproach, is that of marrying a girl whom he loves, provided she consents. There is no occasion for her to bring money into a family that already may have little but money.

And Grandma Jay Gould wasn't an aristocrat by a long shot.

### Being Aged

Once more the reporter has had to record the death of "an aged woman." The paragraph following the caption shows the unfortunate decedent to have attained the ripe maturity of fifty years.

In this day it is difficult at first glance to differentiate the woman of fifty from her own daughter of twenty-five. But to the kid reporter, anybody old enough to vote is aged, or even venerable. 'Twas ever thus, and there is no way to stop it.

### Oddities of the Census

Great Britain is about to take a census of glass eyes.

Why not of store teeth and toupees? Search me!

### Hunger Strikes

There is no complexity caused by the refusal of an obstreperous prisoner to eat.

If he gets hungry enough so that his nerve departs, and he begins to grab at food, all right. Meanwhile the contractor who supplies the meals is ahead of the game.

If he persists to the end, the expense of his upkeep is saved and may be devoted to some worthy purpose.

### Wise Von Reventlow

According to Von Reventlow the German monarchy will cease to exist in the absence of final German victory.

It hardly can be that he thinks he is springing anything new. The general acceptance of this theory accounts for the ardent endeavor of the civilized world to promote and perpetuate the absence mentioned.

### The End of a Miser

An aged resident of Stockholm hanged himself recently for fear that he would die in poverty. He left a large fortune.

His example is called to the attention of wealthy misers generally. Now there is a probability that his formerly useless money may do some good.

### Subduing the Hips

As mentioned before, hips have been banned, and the problem of the well-nourished is how to become a starved in appearance.

Perhaps it is all a part of the plan to induce people to eat less. It may be that it has the official approval of Hoover himself.

### Just Wondering

I wonder if other Americans "see red" as they look at some of the stuff perpetrated over the signature of William Randolph Hearst.

I wonder if it appears to millions, as it does to me, as calculated to create delight in Berlin, to hamper the American conflict and to indicate a greater hatred for an ally than for a foe.

I wonder if they feel as I do, that a patriot would scorn to print such babble, and would regard \$1,000,000 a line for it as not even a temptation.

It is impossible to know many things absolutely. The individual has the guidance only of his own senses. It may be that I have misinterpreted Mr. Hearst.

### Disloyalty

It is just as possible for an editor to be disloyal in English as in German text.

Foreign language papers ought to be on a basis with the others, permitted freedom of expression while they deserve it, and suppressed when they are unworthy.

### The Test

Did the Boston pacifists hit back when the crowd attacked them? If they did they are a lot of bluffers.

Italian cannery men are now utilizing the skins and seeds of tomatoes, the former for stock food and the latter for oil, in its crude form for soap and illumination and when refined for table use.

## The People's Forum

Brief communications will be published under this head, provided they are signed by the author, and such author's name be sent to the Editor as an evidence of good faith. However, the Editor shall be the sole judge as to the propriety of publishing any communications, and the Register assumes no responsibility for any views that may be expressed in this column.

### ONE WAY TO SAVE

Editor Register:—In the present crisis, when it is such a problem to make one dollar do the work of two, would it not be a commendable and beneficial thing for us to leave off a number of common articles of diet which are not only unnecessary but actually harmful?

Among these may be named tea and coffee, which are not foods at all, but actively hinder in the digestion of food. Tea contains a poison theine, identical with caffeine in coffee, and tannic acid, identical with the tannic acid used in tanning hides.

Tea is a powerful astringent, very irritating to the mucus membranes of the digestive tract, and contracts the blood vessels, retarding the circulation. It also tends to constipation and nervous disorders.

Coffee contains caffeine, a drug similar to morphine, and the same as thine in tea, in quantities sufficient to furnish from one and one-half to three grains in an ordinary cup of coffee. Twenty grains of this drug administered, is powerful enough to cause vomiting, convulsions, weak, irregular heart, low blood pressure, collapse, and even death from failure of the heart muscles to act. A very small dose will kill a rat. It is being discarded by the medical profession as an undesirable drug.

Another property of coffee is caffeotannic acid, also damaging to the system, and caffeine which is irritating to the linings of the digestive tract.

Coffee acts upon the heart causing nervous, or palpitating heart, and upon the nervous system in general, often resulting in nervous indigestion. Its use has a tendency to make the body more sensitive to pain. Nervousness and insomnia are common among coffee drinkers, who are often sickly without knowing the cause.

Tea and coffee of themselves contain no nutrient whatever, and the combination of milk and sugar as used in both, is very favorable to fermentation in the stomach.

There is still another damaging effect of tea and coffee drinking, which comes as a result of so much liquid being mixed with the food in the stomach. All this liquid must first be absorbed before the digestive juices can act properly on the food; thus the juices are weakened, digestion retarded and sour stomach likely to follow with its consequential poisoning of the system.

Very little liquid of any kind should be taken with meals, but a great deal midway between meals and in the early morning.

Why not join the ever-increasing ranks of health reformers and leave off these harmful and expensive practices? All it takes is a bit of will power, and the same dollar spent for these will buy good food.

MRS. H. E. BUCHHEIM.

### His Needs

"If you please, mamma," asked Clarence, aged ten, "will you kindly lend me a pencil?"

"But," said mamma, "I left a pen and ink for you to do your lessons with on those instead of a pencil?"

"Well, you see," Clarence explained, "I want a pencil to write and ask the editor how to remove ink stains from a carpet."—Pearson's Weekly.

### Not Painless

The old crane took the hand of the beautiful girl.

"Beware!" she cackled. "Beware, my child! A dark man will cause you hours of pain."

"He has already caused me hours of pain," said the beautiful girl.

"He has?"

"Yes, indeed; he is my dentist."

### Nocturnal Inventions

Mr. Stubbs:—This paper states that a genius should never marry. It says that a married man cannot invent things like a single man.

Mrs. Stubbs (sarcastically)—Nonsense, John! I notice a married man never has any trouble inventing excuses about getting home late."

### Have You Seen Her?

"What kind of a woman is she?" "One without diplomacy."

"Yes, she will argue with an ice man about the size of the lump until it all melts away and there is only a wet spot on the sunny sidewalk."

### A Slight Jolt

Young Boastem—It will cost me all of ten thousand a year to live. Miss Caustique—Don't you think such a waste of money sinful?

## HEADS TRUSTEES NOTIFIED TO APPEAR AND FIGHT

### Summons Served In S. A. Case to Determine Where Fine Money Should Go

Whether all the incorporated cities of Orange county will get a slice of the \$3956.70 tied up in the office of County Treasurer Joplin as the result of fines collected by the city recorder of Santa Ana for violation of the traffic laws will probably be known in a few weeks.

The money has been accumulating there for two years awaiting a court interpretation of that section of the penal code governing the disposition of funds collected for speeding and infraction of other laws covering the operation of vehicles within incorporated cities. It is not clear whether under the law the money should be divided according to population among all the incorporated cities or only those municipalities which maintain speed officers.

The court holds that the law intended to divide the money only between those cities having motor cops, the sum will be divided between Santa Ana and Seal Beach. If the opposite view is held the sum will be pro rated among all the cities. The defect in the law was corrected at the last meeting of the legislature, by the addition of a section providing that all fines collected must be distributed among all the incorporated cities according to population and irrespective of Supervisors, County Treasurer Joplin to arrest violators.

The city of Santa Ana brought suit some six weeks ago against the Board of Supervisors, County Treasurer Joplin and the trustees of all the cities in order to bring the matter into the courts.

City Marshal Jernigan today commenced the work of serving summons on all the defendants to the action. The Supervisors, Joplin and the president of the city council at Orange were served today. The presidents of the councils at Newport Beach, Huntington Beach, Seal Beach, Stanton, Fullerton, Anaheim, Brea, and Orange are yet to be summoned. The defendants will have ten days in which to answer the amended complaint.

### TO DECIDE CUSTODY OF BOPP AND AIDES

SAN FRANCISCO, July 17.—Attorney General Gregory was declared today to decide whether civil or military authorities are to have custody of Franz Bopp, former German Consul E. A. von Schaack, former vice consul, and Lieutenant von Brincken.

Bopp and his associates were brought from Angel Island where they are interned as alien enemies, to the Federal court to answer charges of complicity in Hindu revolution plots. The court set bail of each at \$25,000.

The military authorities then claimed custody of the three by virtue of a presidential warrant, while Federal District Attorney Preston maintains they must answer to the civil authorities.

It was agreed to let the attorney general decide.

### \$20,000,000 STEEL CORPORATION PLANNED

SAN FRANCISCO, July 17.—Formation of a \$20,000,000 steel corporation with smelters, steel mills and blast furnaces to be located on Lake Washington near Seattle, is under way, it became known today.

D. C. Jackling, W. H. Crocker, William Pigott of Seattle and other western financiers, are the organizers. The plan will turn out pig iron, structural shapes and ship plates, the plans calling for the largest steel working establishment west of the Colorado Fuel and Iron Company's Pueblo plant.

The company already has acquired a 500-acre tract on Lake Washington as the site.

### U. S. DESTROYERS ARE 'HUNTIN' THE HEINIES

AN ATLANTIC PORT, July 17.—"Huntin' the Heinies" is what the men aboard the American destroyers in European waters call searching for submarines.

The Americans like the night patrol. Men back from Europe and here today said the night work was more hazardous than the day but that the Jackies say they don't like the idea of going in after dark and "hidin' behind nets."

### KING GEORGE DROPS GERMAN FAMILY NAME

LONDON, July 17.—King George dropped his German family name today for himself and all the royal family. He announced to the privy council at a special meeting that hereafter the royal house would be known by the name of "Windsor" instead of the Germanic Saxe-Coburg and Gotha.

### Our Aetna Acme Policy

A \$25.00 annual premium pays \$10,000 for fatal accident, doubling to \$20,000 if accident occurs while traveling in a public conveyance. Same policy pays \$25.00 weekly for total disability.

Yours—INSURANCE—Iy,

Ben E. Turner.

## AMERICA'S BOARD OF WAR DIRECTORS

### AUGUSTUS SCOTT

Frank Augustus Scott is chairman of the General Munitions Board of the Council of National Defense.

Since the 14th of August, 1914, he has been in the thick of the Allies' buying enterprises in this country. More than one German defeat can be credited to the efficient organization for supplying the Allies with munitions which Scott had built up.

When the United States entered the war, Scott answered the call and came to Washington where he immediately reorganized the buying system of the Navy and the Army.

Without any official authority, without any help from the government he eliminated all competition, all waste of time and energy, until now, if Secretary of War Baker decides the Army needs 500,000 new gas masks he phones Scott of his needs and forgets about the matter. In a few days he receives a message that the new masks have been ordered.

He is saving the government millions of dollars each day. He has arranged for enough rifles to supply a million men, and has already taken charge of such matters as artillery, gunnaries, machine-guns, munition wagons, and anything which the Army has to buy.

Office hours in Washington usually begin at 9 o'clock and close at 4:30, but 8 o'clock in the morning and 8 o'clock at night usually find Scott on the job.

### CORPORATION FIGHT ON BEFORE RY. BOARD

SAN FRANCISCO, July 17.—A fight developed today before the State Railroad Commission upon hearing of application to lower power rates of the Great Western Power Company, the Pacific Gas and Electric Company and the Sierra and San Francisco Power Company when the Pacific Electric Metal Company alleged that a combination of power companies existed to maintain rates.

### OREGON BREWERIES USED TO ADVANTAGE

PORTLAND, Ore., July 17.—Dry Oregon has solved the problem of what to do with her brewery plants now that they cannot produce beer. The old breweries in the state are giving employment to many times the number of men that were employed in the manufacture of beer. The Rainier brewery is now a tannery and employs 150 men. In the making of beer it employed 150 men. The Portland brewery which employed 100 men in making beer, is now giving work to 500 men in making furniture. The Pacific Coast Brewery gave work to 125 men when beer was manufactured, but now as a shoe factory it has on its payroll 2500 men.

### WOMEN TO REPLACE S. F. GROCERY CLERKS

SAN FRANCISCO, July 17.—Housewives in the habit of telephoning to the corner grocery for "a half dozen eggs and a box of matches sent up right away," will be forced to change their custom if the San Francisco grocers place in effect plans being considered today to confine deliveries to one daily.

Indications are deliverymen and grocery clerks will be taken in numbers for the army and it is proposed to replace them with women employees.

## 24 SEEKING TO BE OFFICERS IN NEW ARMY

When A. S. Ralph, at 111½ East Fourth street, last night closed his list of applications of those desiring to enter the training camp that will supply officers for the new selective service army, four names in addition to those previously received were added. They were Earl S. Dysinger, Santa Ana; Lorenzo D. Folsom, Harper; H. H. Coyle, Placentia; and Stanley Chapman, Fullerton. The following names complete the list of those seeking entrance to the camp, which will open August 27:

Paul O. Davis of Garden Grove, Ray Van Bibber, W. O. Hart, Lewis W. Thompson of Orange, Frank G. Freeman, Arthur E. Collins, Charles E. Parslow, Clyde C. Whitney, Marshall Northross, Frank L. Worden of Santa Ana, Alfred L. Blanchard of La-

guna Beach, Lewis W. Blodgett of Huntington Beach, Samuel J. Brown, Jay Palmer, Vard W. Hannum, Gerald L. Simpson, Stanley Ridderhof of Anaheim; Eric E. Lamhofer, T. J. Marks, and C. C. Clifford Jones of Fullerton.

Ralph today stated that he would make an effort to have Major Samuel F. Bottoms, examining officer, coast artillery, come to Santa Ana and pass upon the applications.

### THOUSANDS OF APPLICATIONS POUR INTO BAY CITY

SAN FRANCISCO, July 17.—Applications counted by the thousands for admittance to the second officers reserve corps training camp were turned over today by Major Sam Bottoms, in charge of the selection of the 1100 men who will be admitted to the camp.

The time limit for applications closed yesterday. Only men of exceptional ability will be selected.

### USES \$2000 IN GOLD AS DEATH BALLAST

SAN PEDRO, July 17.—With \$2000 in gold around his waist for "dead" weight, T. Towato, member of the crew of a Japanese steamer, leaped over the side rail here today and was drowned.

## NEWS OF WEDDING

**Miss Corle Crane Cables Sisters of Marriage to Dr. W. J. Seymour**

The Misses Inez and Louise Crane yesterday received a very interesting cablegram announcing the marriage on Sunday of their sister, Miss Corle Crane, to Dr. W. J. Seymour, a well known oculist of Honolulu.

Dr. and Mrs. Seymour will pass their honeymoon of two or three months in China and Japan and will then make their home in Honolulu.

Miss Crane went to the Hawaiian city two years ago to teach in the Kamehameha preparatory school for boys. Her many friends here will wish her much happiness in her new life.

**To Sew for Red Cross**  
Household Economics No. 2 will sew all day Thursday at Red Cross headquarters. The ladies will take lunch and eat in Birch Park at noon. Mrs. A. B. Speer will be the supervisor in charge.

**Call for Group No. 9**  
Group No. 9 of the Ebell Society, Mrs. H. O. Eggen, director, will meet for Red Cross work at the Armory Wednesday, July 18.

Open All Day  
THURSDAY

We will not be closed on account of Grocers' Picnic Thursday, July 19.

Look over these prices. They are below the wholesale list. Even our competitors would do well to pick up these goods.

Fancy Jap Rice, cwt. \$6.00

Alpine Milk, large, per case \$5.50

Matches, per case \$4.75

Matches, per doz. 40c

Fancy Pink Salmon, per tall can 12 1/2c

**SPENDING HONEYMOON**

**Prof. and Mrs. Guy Thompson Here On Visit to Groom's Father**

Mr. and Mrs. Guy A. Thompson arrived in Santa Ana last evening to spend the summer with Mr. Thompson's father, R. J. Thompson of 402 Orange avenue, and other relatives in Southern California.

Mr. Thompson is professor of English Literature in the University of Maine, Orono, Maine, and has been a member of the faculty of that institution for sixteen years.

Professor and Mrs. Thompson are combining their vacation visit with a honeymoon sight-seeing trip across the continent. They were married July 3 in Bangor, Maine, the former home of Mrs. Thompson. Previous to her marriage Mrs. Thompson taught English in the high schools of Bar Harbor, Maine, and Northampton, Mass. She graduated from the University of Maine in 1912.

Professor Thompson holds the bachelor of arts degree from the University of Illinois and Harvard, the master of arts degree from Harvard, and the degree of doctor of philosophy from the University of Chicago.

**Young Soldier Visits Mother**

Sergeant Richard Stillwell of the 21st Infantry, who has been spending a brief furlough with his mother, Mrs. Anna B. Stillwell on East Fifth street, will leave this evening to return to headquarters.

Sergeant Stillwell expects to obtain the appointment of a good position as inspector in the government commissary school at Washington, D. C.

**Left On Pleasant Journey**

Mayor and Mrs. A. J. Visel and daughter Miss Ruth Visel left today in their new Oldsmobile for a trip which will take them to the Yosemite Valley. On the return trip they will stop at Tuolumne Meadows to fish and will also make stops in Inyo county. They expect to be absent three weeks.

**A Missionary Tea**

The Woman's Missionary Society of the Spurgeon Memorial M. E. church, South, will hold a tea at the hospitable home of Miss Linda Paul. Miss Paul will review chapters 4 and 5 in the "King's Highway," also sew for the Red Cross, on Wednesday, July 18, at 2:30 p. m.

**IS MAN WHOLLY MORTAL?**

E. C. Love of Santa Rosa, Cal., and Mr. Alfred D. Fodde, Ia., both very able men, having different views, will alternately investigate the following subjects:

First, "The Nature of Man; Does Any Part Survive the Death of the Body?" Also "The Punishment of the Finally Impenitent."

Second, "Is the Kingdom of Daniel 2:44, Matt. 16:19 and Col. 1:13; the Church Spoken of in Matt. 16:18 and Acts 2:47, or Will There be Another Institution Set Up in the Future?"

Each will give his own interpretation of the scriptures bearing on these subjects, in forty-five minute speeches, omitting all personalities and allusions to each other.

This investigation will take place at the Church of Christ, corner Broadway and Walnut streets, beginning Wednesday evening at 7:30 sharp, and will continue four consecutive evenings.

Everybody invited. No collections.

**SANTA FE CHANGES SCHEDULE OF TRAINS**

The following change of time by Santa Fe trains, effective Sunday, July 22, was today announced:

Train No. 70, due to leave Santa Ana at 8:45 a. m. for San Diego, and train No. 77, due to arrive from San Diego at 8:46 p. m., will be discontinued.

Train No. 65, due to leave Santa Ana at 7:20 a. m., will leave Santa Ana at 7:10 a. m. for Orange and points north.

No. 72, due to leave Santa Ana at 10:45 a. m., will do the local work, Santa Ana to San Diego, arriving at San Diego at 1:10 p. m.

No. 79, due to leave Santa Ana for Los Angeles at 5:45 a. m., will leave Santa Ana at 3:40 a. m.

**SPENDING HONEYMOON**

**Prof. and Mrs. Guy Thompson Here On Visit to Groom's Father**

Mr. and Mrs. Guy A. Thompson arrived in Santa Ana last evening to spend the summer with Mr. Thompson's father, R. J. Thompson of 402 Orange avenue, and other relatives in Southern California.

Mr. Thompson is professor of English Literature in the University of Maine, Orono, Maine, and has been a member of the faculty of that institution for sixteen years.

Professor and Mrs. Thompson are combining their vacation visit with a honeymoon sight-seeing trip across the continent. They were married July 3 in Bangor, Maine, the former home of Mrs. Thompson. Previous to her marriage Mrs. Thompson taught English in the high schools of Bar Harbor, Maine, and Northampton, Mass. She graduated from the University of Maine in 1912.

Professor Thompson holds the bachelor of arts degree from the University of Illinois and Harvard, the master of arts degree from Harvard, and the degree of doctor of philosophy from the University of Chicago.

**Young Soldier Visits Mother**

Sergeant Richard Stillwell of the 21st Infantry, who has been spending a brief furlough with his mother, Mrs. Anna B. Stillwell on East Fifth street, will leave this evening to return to headquarters.

Sergeant Stillwell expects to obtain the appointment of a good position as inspector in the government commissary school at Washington, D. C.

**Left On Pleasant Journey**

Mayor and Mrs. A. J. Visel and daughter Miss Ruth Visel left today in their new Oldsmobile for a trip which will take them to the Yosemite Valley. On the return trip they will stop at Tuolumne Meadows to fish and will also make stops in Inyo county. They expect to be absent three weeks.

**A Missionary Tea**

The Woman's Missionary Society of the Spurgeon Memorial M. E. church, South, will hold a tea at the hospitable home of Miss Linda Paul. Miss Paul will review chapters 4 and 5 in the "King's Highway," also sew for the Red Cross, on Wednesday, July 18, at 2:30 p. m.

**IS MAN WHOLLY MORTAL?**

E. C. Love of Santa Rosa, Cal., and Mr. Alfred D. Fodde, Ia., both very able men, having different views, will alternately investigate the following subjects:

First, "The Nature of Man; Does Any Part Survive the Death of the Body?" Also "The Punishment of the Finally Impenitent."

Second, "Is the Kingdom of Daniel 2:44, Matt. 16:19 and Col. 1:13; the Church Spoken of in Matt. 16:18 and Acts 2:47, or Will There be Another Institution Set Up in the Future?"

Each will give his own interpretation of the scriptures bearing on these subjects, in forty-five minute speeches, omitting all personalities and allusions to each other.

This investigation will take place at the Church of Christ, corner Broadway and Walnut streets, beginning Wednesday evening at 7:30 sharp, and will continue four consecutive evenings.

Everybody invited. No collections.

**SANTA FE CHANGES SCHEDULE OF TRAINS**

The following change of time by Santa Fe trains, effective Sunday, July 22, was today announced:

Train No. 70, due to leave Santa Ana at 8:45 a. m. for San Diego, and train No. 77, due to arrive from San Diego at 8:46 p. m., will be discontinued.

Train No. 65, due to leave Santa Ana at 7:20 a. m., will leave Santa Ana at 7:10 a. m. for Orange and points north.

No. 72, due to leave Santa Ana at 10:45 a. m., will do the local work, Santa Ana to San Diego, arriving at San Diego at 1:10 p. m.

No. 79, due to leave Santa Ana for Los Angeles at 5:45 a. m., will leave Santa Ana at 3:40 a. m.

# TWO OIL WELLS ASSESSMENTS ARE CUT BY THE BOARD

Assessor's Figures On Birch and Columbia Are Sliced Over \$100,000

Over \$100,000 was chopped off of County Assessor James Sleeper's assessments of the Birch Oil Company and the Columbia Oil Company. The slicing was done by the county board of equalization after an examination of assessments of oil properties in the Brea field.

The Birch Oil Company assessment was reduced from \$454,000 to \$408,975, and there was added \$1,000 assessment for a cleaning plant that did not appear upon the Birch statement of property.

The assessment of the Columbia was reduced from \$362,650 to \$299,880.

Both cuts were made with the intention of the county board to equalize the assessments. The petition of the Brea Canyon Oil Company for a cut was denied, the assessor's figures being sustained. The Birch company asked for a reduction from \$454,000 to \$30,400.

The assessment of J. N. Nemo of Fullerton was reduced from \$2500 to \$2000. The assessment of \$5000 on the Creedmore Gun Club at Westminster was sustained.

No other changes were made in the

## MAYR'S WONDERFUL REMEDY FOR STOMACH TROUBLE

Gall Stones, Cancer and Ulcers of the Stomach and Intestines, Auto-Intoxication, Yellow Jaundice, Appendicitis and other fatal ailments result from Stomach Trouble. Thousands of Stomach Sufferers owe their complete recovery to Mayr's Wonderful Remedy. Unlike any other for Stomach Ailments. For sale by druggists everywhere.

rolls as turned over by the county assessor to the supervisors. The period for hearing objections to assessments ended yesterday, and the rolls were accepted as they stood after the changes were made.

Assessor Sleeper has asked the district attorney for an opinion as to whether or not Birch's failure to turn in his cleaning plant for assessment purposes does not give the assessor the right to put ten times the ordinary assessment upon that particular piece of property.

When marriage is a failure—Surely marriage is a failure when its essential purpose, the raising of a family of children, proves impossible. In the childless home the married pair, though sometimes more or less unconscious of the fact, grow disappointed and lonely. Lacking the best tie to hold them together, they are likely to drift apart, hence many separations and divorces.

If every wife, whose physical state prevents motherhood, would but try that great remedy, Lydia E. Pinkham's Vegetable Compound, there would be far fewer childless homes.

You don't need your house heated this kind of weather, but the time will come. Figure now with the Gas Company, for other fuel will be out of reach this season.

## THINK BEAN PRICES PASSED HIGH MARK

In the dried-bean market, the weakness which has prevailed for nearly a month continues and it is hard to quote prices definitely, as such jobber's quotation depends on the size of his stock, says a Los Angeles reporter. The impression seems to be growing that prices have passed the high point for the season and that values will do well to hold their own during the next sixty days. Retailers' stocks of beans have been low for many months, as the demand on present prices has been light.

According to advices from Oxnard, the bean situation generally shows a weaker tone. Many orchards in California which have heretofore had nothing planted between the rows of trees are now producing a good crop of beans. There was new strength added to the market on account of estimated damage by the recent hot spell, but it was soon discovered that the damage was rather small.

# GROGERS, CLERK PATRONS WILL MEET IN TESTS

Program of Sports Arranged For Big Picnic at Park Thursday

Final arrangements for the picnic to be given at Orange County Park Thursday by the retail grocers of the county to their employees and patrons were completed last night, and the affair promises to be one of the biggest events ever scheduled for the County Park. The following officers and committees are in charge of the picnic:

President—Will McBurney.

Secretary—A. D. Burkett.

Refreshments—George A. Edgar, Frank Brown and E. L. Donaldson.

Transportation—E. E. Neff and Joe Vian.

Advertising—R. D. Robison, Phil Bergquist.

Finance—George Wright, Frank Brown, D. P. McBurney.

Entertainment—F. C. Blauer, A. D. Burkett, Charles Sauer.

The latter committee promises fun and sport for everybody.

Included in the program are the following sport events:

Horse-shoe pitching, ball game between grocers and clerks, sack race for ladies, running broad jump, three-legged race, fat men's race, ladies' shoe race, tug of war with ten men on each side, 50-yard dash for women, 50-yard dash for grocers, 100-yard free-for-all, 50-yard backward race, nail driving contest for women, cracker eating contest for women, coat and collar race, potato race, 4-men relay race, 40-yard stake race.

If time permits other contests will be run.

Prizes of various kinds of merchandise have been provided.

## WINTERSBURG NEWS BUDGET

WINTERSBURG, July 17.—A number of Wintersburg people heard the concert at the auditorium in Huntington Beach Friday night given by Hall's Jubilee Singers. The music was good and thoroughly appreciated by a large audience. Those from this neighborhood who attended were Mrs. Nathaniel Walton, Miss Viola Walton, John Murdy, Miss Ethel Gohard, Mr. and Mrs. J. J. Graham, Miss Ethel Graham, Miss Mabel Ulrich, Miss Lizzie Gohard, Mr. and Mrs. George Coker and son, Mr. and Mrs. W. W. Blaylock and family, Mrs. John Cady and children, Miss Agnes Gohard, Mr. and Mrs. D. D. Gardner and family, Mrs. James Haptonstall, Mr. and Mrs. C. N. Davis, Mr. and Mrs. Albert Ruoff and son, Miss Zexia Nichols, Miss Mary Gohard, Prof. H. O. Ensign, Paul Frenger, Miss Juanita Isenor, Miss Ethel Isenor, Rev. and Mrs. O. N. Oleson.

Pledges for the Council of Defense are being circulated among the women of the vicinity and a number have already signed. While nearly all the women say they are as judicious as possible in the care and use of food stuffs, yet through the Council of Defense new ideas may come that will prove useful. There is no organization and will be no dues, and it is hoped every one will send in her name.

The Queen Esther Circle met Friday afternoon at the home of Mrs. A. H. Moore to sew for the Red Cross. The work of the day was making needlebooks to be placed in the comfort bags for the soldiers. A similar meeting will be held again in two weeks—on Friday, July 27. Those present were: Miss Lizzie Gohard, Miss Fern Bradbury, Miss Viola Walton, Miss Ethel Gohard, Miss Myrtle Culver, Miss Lydia Moore, Miss Mary Gohard and Miss Ethelene Culver.

The Epworth League Institute at Huntington Beach was opened Monday morning, the following persons registering from the Wintersburg chapter: Miss Cleo Ulrich, Miss Fern Bradbury, Miss Ethel Gohard, Miss Viola Walton, Miss Lizzie Gohard, Miss Mary Gohard, Prof. H. O. Ensign, Mrs. A. H. Moore, Rev. O. N. Oleson.

## Juice of Lemons! How to Make Skin White and Beautiful

At the cost of a small jar of ordinary cold cream one can preserve a full quart of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of cold cream. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as sallowness, freckles and tan and is the ideal skin softener, smoother and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It naturally should help to soften, freshen, bleach and bring out the roses and beauty of any skin. It is wonderful to smoothen rough, red hands.

Oleson. Mrs. Moore is to camp on the grounds during the week and will chaperone the girls.

A party of four left Monday afternoon for Big Bear for a week's camping and trout fishing trip. They were Andrew Moore, Ray Shaffer, Rev. A. J. McKenzie of Escondido and Rowton of Los Angeles. Rev. McKenzie left his auto here and all went in A. H. Moore's car.

Mrs. E. Meredith, who has been the guest of her sister-in-law and husband, Mr. and Mrs. H. H. Hathaway, left on Tuesday for Ventura county. After two weeks spent with a sister there, she will return to her home in Texas. Lee Farrar of Riverside drove up from Los Angeles Saturday to take Mr. and Mrs. B. A. Farrar away for a week's trip. First he wishes them to inspect a new ranch he has recently purchased, and after a few days there they will all go to the Farrar summer home in Big Bear.

Mr. and Mrs. E. Ray Moore and Mr. and Mrs. Earl Farrar, with their families, returned Sunday evening from Anaheim Landing, where they have been enjoying a vacation. Mr. and Mrs. Emil Ketter, who were with them, returned on Saturday night. Everybody had a fine time.

Mr. and Mrs. J. A. Murdy and daughter Ella, Mrs. Blanche Paul and children took dinner Sunday with C. C. Murdy and family at Westminster. The dinner was given for little Miss Lola Murdy, who was five years old on that day.

Ralph Murdock and Miss Elma Murdock, nephew and niece of Mrs. W. F. Slater, started early Monday morning for their home in Stratmore, Tulare county, after a visit here with relatives and friends.

Wintersburg enjoyed a shower of rain on Sunday morning.

Mrs. J. J. Graham, Miss Ethel Graham and Miss Mable Ulrich motored to Long Beach Friday to visit a friend.

Mr. and Mrs. George Gohard, Joe, Edwin and Miss Agnes Gohard went to Corona Sunday to visit Mrs. David Chapin, a sister-in-law of Mrs. Gohard.

W. W. Blaylock has purchased a five-passenger Overland.

Miss Vera Cady was the house guest of Miss Lyle Robinson several days last week.

Velma Nichols returned from the Imperial Valley Saturday and is making the home folks a visit of several days.

J. D. Shutt and wife, Lucile, Esther and Thomas Radford, Mr. and Mrs. Earl Gardner and two daughters went to Santiago canyon Saturday and camped over Sunday.

Miss Ruby Cleaver and Oscar Cleaver went to Los Angeles Saturday, the former remaining over Sunday with her sister, Miss Nina Cleaver.

Mrs. Perry Wells visited Mrs. R. O. Wells on Friday.

Mr. and Mrs. Frank Ulrich and Miss Cleo Ulrich drove to Garden Grove Sunday afternoon to call on Mr. and Mrs. Rice, former residents of Wintersburg.

Kenneth Ufford and wife passed through Wintersburg Saturday.

Mrs. F. A. Williams of Oxnard is the guest of her daughter, Miss Emil Ketter.

The youngest child of Mr. and Mrs. C. M. Hill is quite ill.

Charles McDonald came out from Los Angeles to spend Sunday with his mother.

## PERSONAL AND SOCIAL NEWS NOTES FROM ORANGE CITY

ORANGE, July 16.—Those present at a family reunion at the Max Simon home on South Orange street yesterday were Messrs. and Mmes. C. F. Schubert, H. E. Schubert, of El Paso, Texas; D. Pehrens, A. Griffith and son, Los Angeles; F. A. Plegel and children, Placentia; M. A. Simon, and A. A. Schubert and son, San Bernardino. H. E. Schubert and A. A. Schubert are sons of C. F. Schubert. Little Robert Griffith is a great-grandson of C. F. Schubert.

Among the local people who spent Sunday at Newport and Balboa were Mr. and Mrs. H. H. Sykes, William Grecht and family, E. M. Chapman and family, Fleetwood Bell and family, William Wagner and family, P. W. Wyland, William Barnes and family, H. Shipke and family, James Fullerton, Ed Fullerton and family, Ross Miller and family, Earl Hutchinson, Oscar Stanfield and family, Carl Shipke and family, Phil Truby and family, Mr. and Mrs. Tom Walton and Mr. and Mrs. John F. Allen.

Mrs. George E. Osmun and son, Allen, returned Saturday afternoon from a week's visit with Mrs. Osmun's daughter in Antelope Valley. They went and returned by motor and found the Bouquet canyon roads in very good condition.

Mr. and Mrs. Fred Meeske and Miss Rose Meier, of West Point, Neb., who are house guests of W. Meeske, are spending this week at Long Beach. Bruce Richards and daughter, Miss Marjorie Richards and son, Marvin, visited relatives at Long Beach yesterday.

The little daughter of Bert Howard of East Palm avenue fell from her bicycle Saturday and broke her arm. H. C. Bailey of Hemet visited friends in Orange this week end.

Mr. and Mrs. W. Waechter spent yesterday in Los Angeles.

Mr. and Mrs. Joe A. Brown and son, Vernon, of Fullerton, were guests at the W. B. Linney home at El Modena yesterday. Mr. and Mrs. Brown have just returned from their Silverado mine at Sweet Water, Nev.

Mrs. E. E. Murray and daughter, Miss Myrtle, who have been visiting Mrs. Murray's daughter, Mrs. Bert Toney and Miss Anna Murray, returned to their home in Escondido this morning.

Miss Vesta Davis, who has been the house guest of Mr. and Mrs. C. P. Morey, left for her home in San Jose this morning. Mrs. Morey accompanied her as far as Los Angeles.

Huntington Beach

# ATTENDANCE AT BEACH EPWORTH MEET SETS NEW RECORD

Opening Day Registrations Total 473 At Huntington Beach Conclave

HUNTINGTON BEACH, July 17.—With the anticipation that the attendance will be far beyond what most of the officials had anticipated, the second day's session of the eighth annual Epworth League Institute of the Southern California Conference Epworth League is in progress here today.

The opening yesterday was marked by the largest attendance of any similar day in the history of the institute. At 2 o'clock in the afternoon the registrations totaled 473, as against seventy-eight for the opening day last year.

The number of visitors was so much larger than Judge W. D. Seely, manager of the Tent City Company, had expected, that he and his associates had a strenuous time accommodating the people.

League officials have taken charge of the cafeteria in order to make the charges as reasonable as possible.

## FEDERAL TEST GIVES LEAD TO LEGHORNS

Superiority As Layers Is Indicated In Government's Report

WASHINGTON, D. C., July 17.—Leghorns produce eggs cheaper than hens of the general-purpose breeds—Plymouth Rocks, Wyandottes, Rhode Island Reds and Orpingtons. This fact, which confirms the belief and experience of commercial poultry farmers, was one of the results obtained in a rather extensive feeding test recently reported by poultrymen of the United States Department of Agriculture. Because they lay as many or more eggs, eat only about 55 pounds of feed per head as compared with 70 to 85 pounds eaten by the general-purpose breeds, and because their egg yield very materially exceeds that of general-purpose breeds during their second and third laying years, Leghorns, the specialists say, undoubtedly are more profitable to keep for the production of eggs only.

In this test the feed cost of a dozen eggs for one of the Leghorn pens was 7.34 cents in 1913, while the average cost of all the pens of the general-purpose breeds was 10.6 cents. In 1914 the feed cost of a dozen eggs for the same pen of Leghorns was 8.7 cents as against an average cost of 15.1 cents for the second laying year of the general-purpose pens. During their third laying year the cost of a dozen eggs was 8.8 cents compared to 18.6 cents for the general-purpose fowls. The total value of eggs per hen over feed cost in the Leghorn pen for three years was \$6.84 against \$4.30 for the general-purpose hens. The highest egg production obtained in any of the feeding experiments up to 1915 was by a pen of Leghorns which laid 157.6 eggs per hen, at a feed cost of 6.7 cents a dozen.

The Leghorns produce smaller eggs than the general-purpose breeds. The average weight of the eggs of a pen of Leghorns during the first laying year was 1.42 pounds per dozen as against 1.53 to 1.58 pounds for the other pens. However, Leghorns laying eggs weighing 1.50 pounds per dozen or even more, the specialists say, have been selected and bred by many poultrymen. An examination in May, 1915, of 500 eggs from three Leghorn pens showed that 31 per cent weighed more than 2 ounces apiece, or 1.50 pounds to the dozen.

The value per dozen of the eggs produced by the Leghorns was from 1 to 3 cents less each year than the eggs of general-purpose hens. This difference is due to the fact that the general-purpose breeds are better winter layers than the Leghorns, while the latter give a higher production in the spring and summer. Very few Leghorns become broody, which probably materially affects their egg yield as compared with the general-purpose breeds. Better fertility in the eggs, especially with stock confined to the yards, is more often secured with Leghorns than with the general purpose or any of the heavier breeds.

## SHELL INTERESTS EYE OLINDA'S OIL FIELDS

FULLERTON, July 17.—There is a persistent rumor afloat to the effect that the Shell interests are looking longingly at some of the properties of the local oil fields, and no doubt some big sales may be consummated in a few days. It is believed that negotiations are under way for the purchase of the Olinda Land Company's property south of Olinda. However, it is impossible to verify any of the rumors or reports as all oil deals are always made in the greatest secrecy and kept so until the details are worked out. Should the Shell interests purchase the property of the Olinda Land Company they will get some very good oil lands capable of a lot of productive development as well as getting an established production of no small amount.

A dollar invested now in Spoktite for tightening loose wheels will save you the expense of having them repaired when they collapse. A Spoktite dollar does the work of ten dollars spent for tightening wheels the old mechanical way. And in many cases Spoktite has saved the price of new wheels.

## The SPOKTITE Way Swells Wood Of Tightening Loose Wheels

Is so simple that any one can do it—so cheap that no one can afford not to do it. You simply squirt a few drops into the cracks caused by the shrinkage at the hubs and felloes. Spoktite goes right into the wood and swells it to its original condition of tightness—and keeps it there. Thousands of automobile, carriage and wagon owners are using it successfully. In fact, not a single failure has yet been reported.

## Quicker and Better Than Old Way

The old or mechanical way keeps your vehicle idle a half-day or more. Spoktite tightens 4 wheels in an hour—and without the trouble of taking them off or apart. The old way does not prevent further shrinkage or swelling. The Spoktite way keeps them always in the same condition of tightness. Spoktite is not a glue, but a liquid compound put up in a handy spout can.

## Invest in Wheel Insurance Today

Guard against dangerous accidents by "Spoktiteing" your wheels now. Go to the nearest garage, auto supply or hardware store and get a wheel size can of Spoktite—enough for 4 wheels. It costs only one dollar and saves many more. If your dealers do not carry it, write our factory and we will see that you are promptly supplied.

## SPORTS

By H. C. Hamilton

NEW YORK, July 17.—Mike Gibbons, middleweight, has reached virtually the same stage of operations where Johnny Kilbane stands.

These two masters of their art are practically out of some one to fight for a lack of featherweights of class. Kilbane is being forced to take on lightweights. Gibbons, out of classy middleweights, is forced to just sit there really are few heavies who look attractive when compared with Mike.

Mike's inaction, however, is far from pleasing to the public. Although recognizing the fact that Gibbons stands out from the many would-be rivals, the fans would like to see the St. Cloud Ghost take one more fling at the top-notchers. Jimmy Clabby is still far from being classed among the has-beens and Jeff Smith insists he can and always could whip Mike.

However, the most insistent cries for attention from Gibbons are coming just now from Soldier Bartfield, Ted Lewis and Mike Lowd.

Lewis, a welterweight, has given Gibbons one tough argument, and Bartfield holds a newspaper decision over the man generally recognized as the king of the middleweights. O'Dowd is a graduate of the Gibbons school and is recognized as one of the best men the welterweight division has seen in many days.

Any one of this trio of welterweights would give Mike an argument—a hot one. And then if he could induce Al McCoy to get into a ring with him there would be another bout of more or less possibilities. Al is not a champion and never has been, but he manages to hang on to what little claim he has to the title. Until he is soundly thrashed by Gibbons or some one else he will lay claim to the championship and some folks will believe him.

A rival of interest in the middleweight is needed. In the days of Stanley Ketchel this was the most popular of weights. It has begun to run down only since Gibbons whipped the best man in the division and began to spend his time clipping coupons.

Mike spent most of last winter in New York trying to drive Les Darcy into a match. The Australian was absolutely unimpressible on the subject. It meant a clear title to a world's championship for either he or Gibbons, but Darcy blocked every move.

Since that time Gibbons has engaged in just one counter and that with George Chip on July 4. Indications are he is beginning another campaign. If so, it will be welcome.

## Real Estate Transfers

(Furnished by the Orange County Title Company.)

Deeds, July 13, 1917.

Carrie L. Weber to Cora S. Carpenter, Lots 1 and 2, block A, Seacombe.
